## Functional and ecological villa

We have designed and equipped Eriklinna a beautiful and smooth stay in mind, with touches of luxury and elegance.

### Main floor

In the main floor of Eriklinna you'll find the main living areas, sauna, kitchen, two bedrooms and a study. The spacious living room creates a space of enjoyment with its entertainment equipment, comfortable armchairs and sofa and a lovely fireplace. From the living room and adjacent dining room you have access to a covered patio with views over the lake and towards the village. Additionally, on two sides of the building there are spacious roofed terraces leading to the yard and to the ground floor. In the sauna the high-quality Iki-kiuas (bath-house stove) will give you an unforgettable sauna experience!

### Second floor

In the second floor there are three bedrooms (one ensuite) a comfortable lounge and a kitchenette. Each floor has entertainment equipment, appropriate tableware, a dishwasher, refrigerator, coffee maker and a kettle. The bedrooms have beds of either 120 cm or 80cm wide. The beds can be joined as doubles.

### Ground floor & spa

In the ground floor there is a mini spa, a lounge and a bar, as well as a separate room for (ski) equipment maintenance, a technical space and a utility room. Eriklinna's spa offers opportunities to relax and a blissful spa atmosphere. In the spa facilities, you can find e.g. a steam shower.
